

# CEMData

## *New OPC interface*

Use the new [CEMData](#) OPC Client interface as input or output with any OPC server, e.g.

DCS  
SCADA  
OSI-Pi  
OPC-enabled analyser systems

- OPC DA 1.0 and 2.0 client interfaces
- AppSetup includes heirarchical OPC Tag Browsing
- CEMData can read from / write to any OPC Server

Acquire and write any plant-wide tags for emissions-related data, e.g. CEMS, fuel consumption, generated power, plant operating status, etc.

CEMData and OSI PI

Connect via the PI OPC DA/HDA Server to give read/write access for CEMData to all plant information:
